BOLOGNA-CENTRO STAMPA OCCUPATO
"UFFICIO IX CENTENARIO"
OCCUPIED PRESS OFFICE
"NINTH CENTENARY OFFICE"

I am the Astronomy's student who talked with a girl of your college on the phone.

Because of the fact we have realized that it was almost impossible to understand each other phoning, I repeat here the request I told you before:

Here in Italy we are trying to organize a communication network service via the VAX/VMS-computer's MAIL.

It is a sort of electronic mail that we wish ^{to use} ~~we used~~ to establish contacts with all the students of the Italian Movement and with all the others sympathizing with us abroad.

I realized, in my call on the phone, that you don't know anybody having an access on the scientific computer network.

I send you my electronic address, the same way. Maybe it could be useful for you to have it later, in the case you meet someone interested on this matter.

My MAIL ADDRESS: ASTB05::ST123 (DECNET service)

Another request: Can you send us any sort of material concerning the activity of your occupation you retain useful for the contacts between each other?

Giam Paolo

GOOD NIGHT, FRIENDS

AND HOLD THE LINE !!
